

# A CHOICE FOR LASTING RESULTS

Take Medtronic Sacral  
Neuromodulation therapy to the  
next level with two  
InterStim™ SureScan™ systems

Medtronic

Deliver life-changing  
results with Medtronic Sacral  
Neuromodulation (SNM) therapy.<sup>1,2</sup>

Recharge-free and rechargeable  
options allow you to choose what's  
best for each patient with the peace  
of mind of full-body MRI eligibility.\*

\*Under specific conditions. See approved labeling for details.

# MORE ROADS TO LASTING RESULTS

InterStim™ II Neurostimulator

InterStim™ Micro Neurostimulator

## Medtronic partners with clinicians like you to provide multiple options for Sacral Neuromodulation

Provide choices for your patients with recharge-free and rechargeable options that are both full-body MRI-eligible\* — and only available from the trusted leader in SNM.

- Choose which system best fits each patient's lifestyle
- Treat patients who prefer the simplicity and ease of a recharge-free device
- Accommodate patients who may benefit from a smaller device
- Give patient access to full-body MRIs

\*Under certain conditions; see approved labeling for details.

# EXPANDED ELIGIBILITY

## Accommodate patients who may require full-body MRIs

Proprietary SureScan™ technology allows patients with either InterStim™ system to get full-body\* 1.5- and 3-T MRI scans, so you can bring life-changing\*\*\* results <sup>1,2</sup> to an even wider range of people.

## EXPERIENCE MATTERS

- Medtronic SureScan™ MRI systems offer results with uncompromised MRI access\*
- More than 18 years of full-body MRI research
- Based on 10 million simulated patient scans\*\*
- And more than 1.2 million unique scanning scenarios\*\*

\*\*\* Results may vary from person to person

\*\* Medtronic data on file

\*Under certain conditions; see approved labeling for details.

# THERAPY RESULTS

## InterStim™ II system with MRI Eligibility

As a recharge-free sacral neuromodulation device, InterStim™ II system gives your patients the reliability of long-term results<sup>1,2</sup>, freedom of therapy delivery without a recharging routine and confidence in full-body MRI eligibility\*.

- Delivers sustained improvements in quality of life<sup>1,2</sup>
- Chosen to treat **more than 300,000 patients** worldwide
- Over **25 years** experience in SNM technology.
- Only SNM device with **five-year clinical data** demonstrating sustained efficacy<sup>1,2</sup>

\*Under certain conditions; see approved labeling for details.

# MICRO DESIGN MAXIMUM RESULTS

## InterStim™ Micro System

Introducing the InterStim™ Micro system, the rechargeable implantable sacral neurostimulator for bladder control and bowel control.

- **Small** sacral neuromodulation device available at less than 3cc
- **15-years** life span\*\*
- **Rapid recharging**
- **Full-body MRI** eligibility\*
- Designed to deliver the same effective results as the InterStim™ II system

\*\* Based on pre-clinical data

\*Under certain conditions; see approved labeling for details.

# THE POWER TO **CHANGE LIVES**

## Innovative Medtronic Overdrive™ battery technology

The proprietary chemistry of the Overdrive™ battery gives your patients what they want in a rechargeable device.

- **Zero fade over 15 years** of therapy delivery\*
- **Charges in 30 minutes or less**, once a week\*\*
- Recharges from zero to 100% in **less than an hour\*\***
- Allows patients to restart therapy after an extended period **without physician interaction\*\***

\*\* Medtronic data on file

\*Under standard patient therapy settings and implant depth.

# FAMILIAR, INTUITIVE CONTROL

## Use innovative apps to take advantage of new capabilities

A full suite of apps allows you to streamline programming and your patients to manage their experience easily — at home or on-the-go.

- **Intuitive experience** with a single programming platform from evaluation, to implant, to long-term therapy management
  - **Inspire patient confidence** with an intuitive interface that resembles familiar consumer technology
  - **Simplified control** with the access to an accurate view of the patient's therapy to facilitate constructive patient conversations
- Patients can use these apps to:
- Turn therapy on/off
  - Adjust stimulation as needed
  - Change therapy programs (at your request)
  - Check MRI eligibility
  - Activate MRI mode
  - Check neurostimulator battery life

# BUILDING THE FUTURE TOGETHER

Medtronic built our sacral neuromodulation portfolio on more than two decades of partnership with clinicians like you. As a result, you trust our devices to deliver the results your patients need.

## ELEVATED PARTNERSHIP

Medtronic provides dependable, high-quality technology, expert support, and specialized services that make it easy for you to help your patients.

- Practice and market development
- Digital marketing support
- Patient engagement programs

## ONE-STOP SIMPLICITY

Medtronic partners with you to develop services and support your practice needs to thrive.
