Nitron CryoConsole™ Cardiac Cryoablation System

# Intuitively elevated workflow

The Nitron CryoConsole™ safely and effectively powers the Arctic Front™ family of cardiac cryoablation catheters and the Freezor™ family of cryoablation catheters. It is the next generation of the Medtronic CryoConsole, expertly elevating the cryoablation workflow.

Meaningful enhancements have been built into the Nitron CryoConsole for efficient operation:

## **Enhanced data capture**

Automated and customizable key procedural data captured real-time and post-procedure in exportable case summary report.

### Simple graphic user interface

Enhanced GUI with intuitive CryoConsole operation guidance, custom user profiles, and visual indicators of procedure parameters like TTI and previous freeze trace.

## **Optimized workflow**

Simple, optimized workflow with touchscreen interface, wired remote control, and mirrored Nitron CryoConsole display on external lab monitors. The console also includes an EP connectivity feature, which enables cryotherapy information to be transmitted to select external EP recording systems.

#### **Brief Statement**

See the device manual for information regarding the instructions for use, indications, contraindications, warnings, precautions, and potential adverse events. For further information, contact your local Medtronic representative and/or consult the Medtronic website at www.medtronic.eu.

For applicable products, consult instructions for use on manuals.medtronic. com. Manuals can be viewed using a current version of any major internet browser. For best results, use Adobe Acrobat\*\* Reader with the browser.
