Medtronic
Further. Together

WHY MEDTRONIC?

Medtronic has an extensive heritage in partnerships with Public Hospitals and Private Groups. Delivering value-based healthcare, clinical expertise and innovation through products and services that are focused on patient care and clinical outcomes.

OR ESSENTIALS

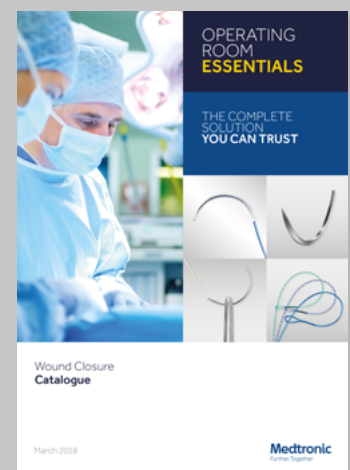

We pride ourselves on being a brand you can trust. With our proven track record of **quality products and services**, you can feel reassured that Medtronic's OR Essentials will help you to continue providing **the very best patient care** from the first mark to the last stitch. Let's embrace the future together.

Laparoscopic Access

Surgical Instruments

Wound Closure

INTRODUCTION

With over 50 years of science, engineering and a deep understanding of the complex demands of running a hospital, Medtronic laparoscopic solutions and support services help reduce that complexity. New product configurations and revolutionary designs such as the new VersaOne™ universal cannula, are setting new standards and efficiencies in inventory control and patient care.

VersaOne™ Trocars

Following numerous surgeon interviews, focus groups and pre-clinical labs, the redesigned trocar platform enhances*¹ product performance and simplifies the product line without limiting choice.

VersaOne™ trocar family includes:

- Optical trocars
- Bladeless trocars
- Bladed trocars
- Blunt trocars

VersaOne™ Fascial Closure System

The new unique all-in-one² solution that serves as a trocar and a fascial closure device to deliver:

- Consistent port-site closure²
- Added procedural efficiency^{2,†}
- Ease of use²

Universal Cannula

The new universal cannula is the true revolution of VersaOne™ Trocars. It offers greater flexibility, helps reduce the number of SKUs by over 20%, simplifies product options which means reduced inventory costs and increased operating efficiency.**

See inside for more product specific benefits

Blunt Tip Trocars

The OMS family trocars include balloon anchoring system, latex free.

Thoracic Access

Thoracoport™ single use trocars are used in thoracic endoscopic procedures to establish a port of entry for instrumentation.

Accessories

Include the Surgineedle™ which is used to establish pneumoperitoneum prior to abdominal endoscopy. Sterilization storage Trays and Endoscopic Solutions.

Surgisleeve™ Wound Protector

An access device used in open and minimally invasive surgery (MIS). Available in a wide range of sizes. Protects the wound site and helps for better visibility.

Clarify™ Visualization System

An all-in-one system enabling optimal visualization and patient safety throughout the procedure. Defogs, cleans and protects your scope and trocar.

* Compared with the previous generation of the product.

**The universal cannula can be used with different obturators.

† Compared to the competitive closure device, suture passers, and hand sutures.

1. Based on internal test report#2143-123. Applies to Medtronic 12 mm trocars, when compared to the Versaport™ Bladeless 12 mm trocar. March 2013.

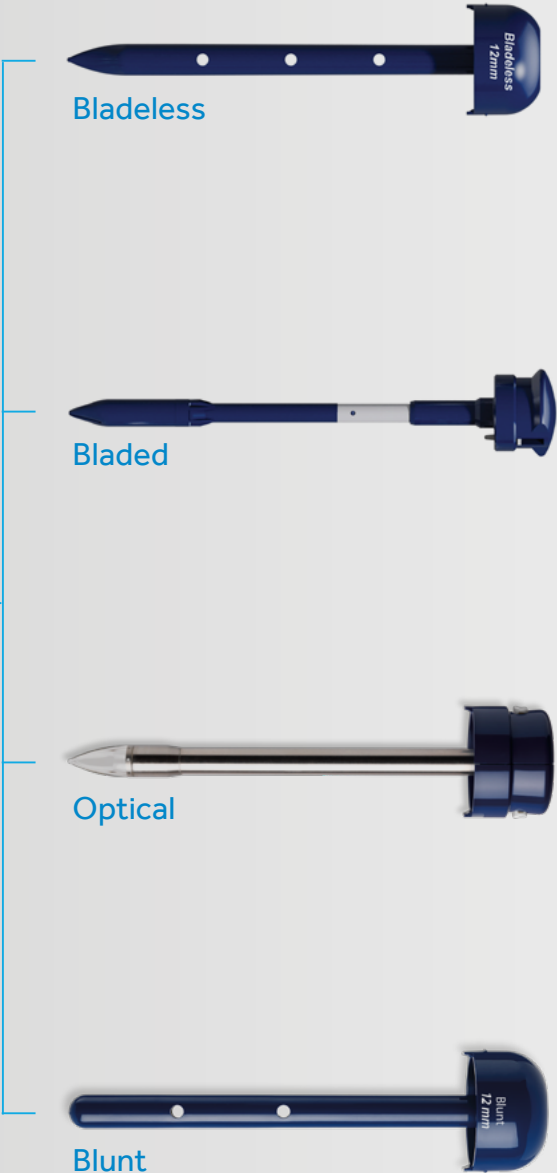

2. Comajuncosas J, Hermoso J, Gris P, et al. Risk factors for umbilical trocar site incisional hernia in laparoscopic cholecystectomy: a prospective 3-year follow-up study. Am J Surg. 2014;207(1):1-6.
